Well folks, the hard parts of the upgrade are complete!

Now comes the fun part, rolling out our new services to offer you, the users.

First off all of the SorceryNet Team wish to thank you for your time and patience during the upgrade, for rolling with the changes and for your input and suggestions. We know it's not simple, but we admire how quickly you've all adapted to the changes and your enthusiasm to see the network pick up steam and keep going.

Now we want to build on that momentum and keep things going, so now we want your input once more!

Starting Friday our staff will be using the sorcery@sorcery.net mailing list to open discussions with the users on specific feature requests, answering questions, and giving out more details on some of our new services we want to start offering.

To join the mailing list simply visit: <http://lists.sorcery.net/mailman/listinfo/sorcery> and fill in your information to subscribe.

We will begin by discussing the following topics: Free Webhosting for channels, Forums for users & Channels, #RPG-Hub and finally we wish to discuss SorceryNet offering public gaming servers for our users.

Secondly we wish to introduce you all to some new staff and helpers we have on SorceryNet

New Opers:

Kandi
{Ozy}
MissPurple
Deathshead
chaz

New Help team member:

Scrumps

We welcome all these new opers and helpers to the SorceryNet Team.

as always if you have any questions or need any help join #sorcery
