---

Following our first meeting in #Forum on the 17th of February the admins of the network entered in to a discussion about changing our maximum channel limit from 15 to 32.

While many users may not use anywhere near this many channels some do, and often hit our limit of 15 and had to clone to join the other channels they use on a daily basis. By changing the limit to 32 we feel we're offering our users a much better service.

I'm glad to say that this new channel limit is already in place and people can begin joining more than 15 channels straight away without having to connect more clients making it easier for them to keep track of all the channels they're taking part in.
